#### **`Put it On' - New Works by Thukral & Tagra**

[Bose Pacia Gallery](#), 508 W. 26th Street, 11th Floor, New York

27 April - 9 June 2007

The exhibition, intended to create greater awareness and vigilance of HIV through the visual arts, includes installations (using products such as undergarments and foot wear, designed by the artists themselves) and paintings. The project has been described by the artists as 'an eye opener' which has 'taken us to places where things have become transparent, sensitive and responsible.' The artists will attend the opening reception on 27 April.
